

Connect | Your Future

For International Students

College  Lake County™
Connect to Your Future

Explore a world of possibilities, set goals and prepare for the next great phase of your life.

Right here, there is a college that can connect you to the future you want and deserve, providing an excellent education at a price you can afford.

It's the College of Lake County, a caring place where professors know you, where academic advisors guide you to success and where you're surrounded by other students who are ready for the next exciting phase of their lives.

At CLC, you are encouraged to explore and discover your own talents and the world. Learn to program a robot, or investigate the structure of the atom through an electron microscope. Find artifacts on an archaeological dig in Central America or create an art portfolio of your own. Spend a semester studying in China, or learn Chinese cookery in our culinary program.

**It's all possible at CLC.
It's your time. Make it count.**

Connect | Learning

At CLC you'll learn in lots of ways that will help you earn a good living as well as live a rewarding life.

Of course, you'll gain a thorough grounding in your major. That's a given. But you'll also learn important thinking skills that will stay with you all your life. And you'll do it in ways you might not expect.

In a sociology class, for example, you might watch a classic episode of Star Trek and have a spirited discussion about the reasons for prejudice from the characters' points of view.

Or in an English class, you might learn how to write a good essay from two surprising sources: comic books and anime.

Our professors always try to make learning both challenging and interesting.

An affordable bachelor's degree

Earning a bachelor's degree at an Illinois public university now costs on average about \$155,056 in tuition and fees. Earning that degree at a private university averages about \$170,576 in tuition and fees.

There is a more affordable way to earn your degree: combining two years at CLC with two years at a four-year university. Depending on whether you attend a public or private university after CLC, you can save up to \$66,352 on the cost of your bachelor's degree.

CLC offers the same general education courses you would take in the first two years at a university. Complete your "gen eds" with us and then transfer to the college or university of your choice. Our students have gone on to every kind of institution—from public universities to Ivy Leagues.

Connect | Transfer

Degree Majors

CLC offers 51 programs leading to a bachelor's degree at a four-year college or university.

University of Wisconsin-Madison
University of Wisconsin-Parkside
Vanderbilt University
Yale University

Connect | Honors

College is meant to challenge and stretch your abilities.

CLC Scholars: This program is for high-achieving students in transfer programs, particularly those who may potentially pursue graduate work. In addition to traditional coursework, students complete a series of specialized academic assignments, projects and activities under faculty direction, and they enroll in a Scholars Seminar, a humanities course. Those accepted receive free tuition, fees and textbooks.

The following programs are open to career and transfer program students:

Honors Program: This option allows students to enroll in special honors-only classes that provide an enriched learning experience and close work with faculty.

Phi Theta Kappa: PTK is the international honor society for community college students. To be eligible, you need a CLC GPA of 3.5 or higher after accumulating at least 12 credit hours. PTK members have earned thousands of dollars in scholarships to continue their education after CLC.

A well-paid career in 2 years or less

Did you know that some associate degree graduates out-earn bachelor's degree recipients? In fact, a 2011 study conducted by the Georgetown Center on Education and the Workforce found that about 28.2 percent of associate degree graduates earn more than their bachelor's degree counterparts.

Your path to these careers is an Associate in Applied Science degree or career certificate. We offer these options in 40+ career fields including computer technology, healthcare, culinary, high-tech manufacturing, business and more.

Sample of associate degree occupation salaries*

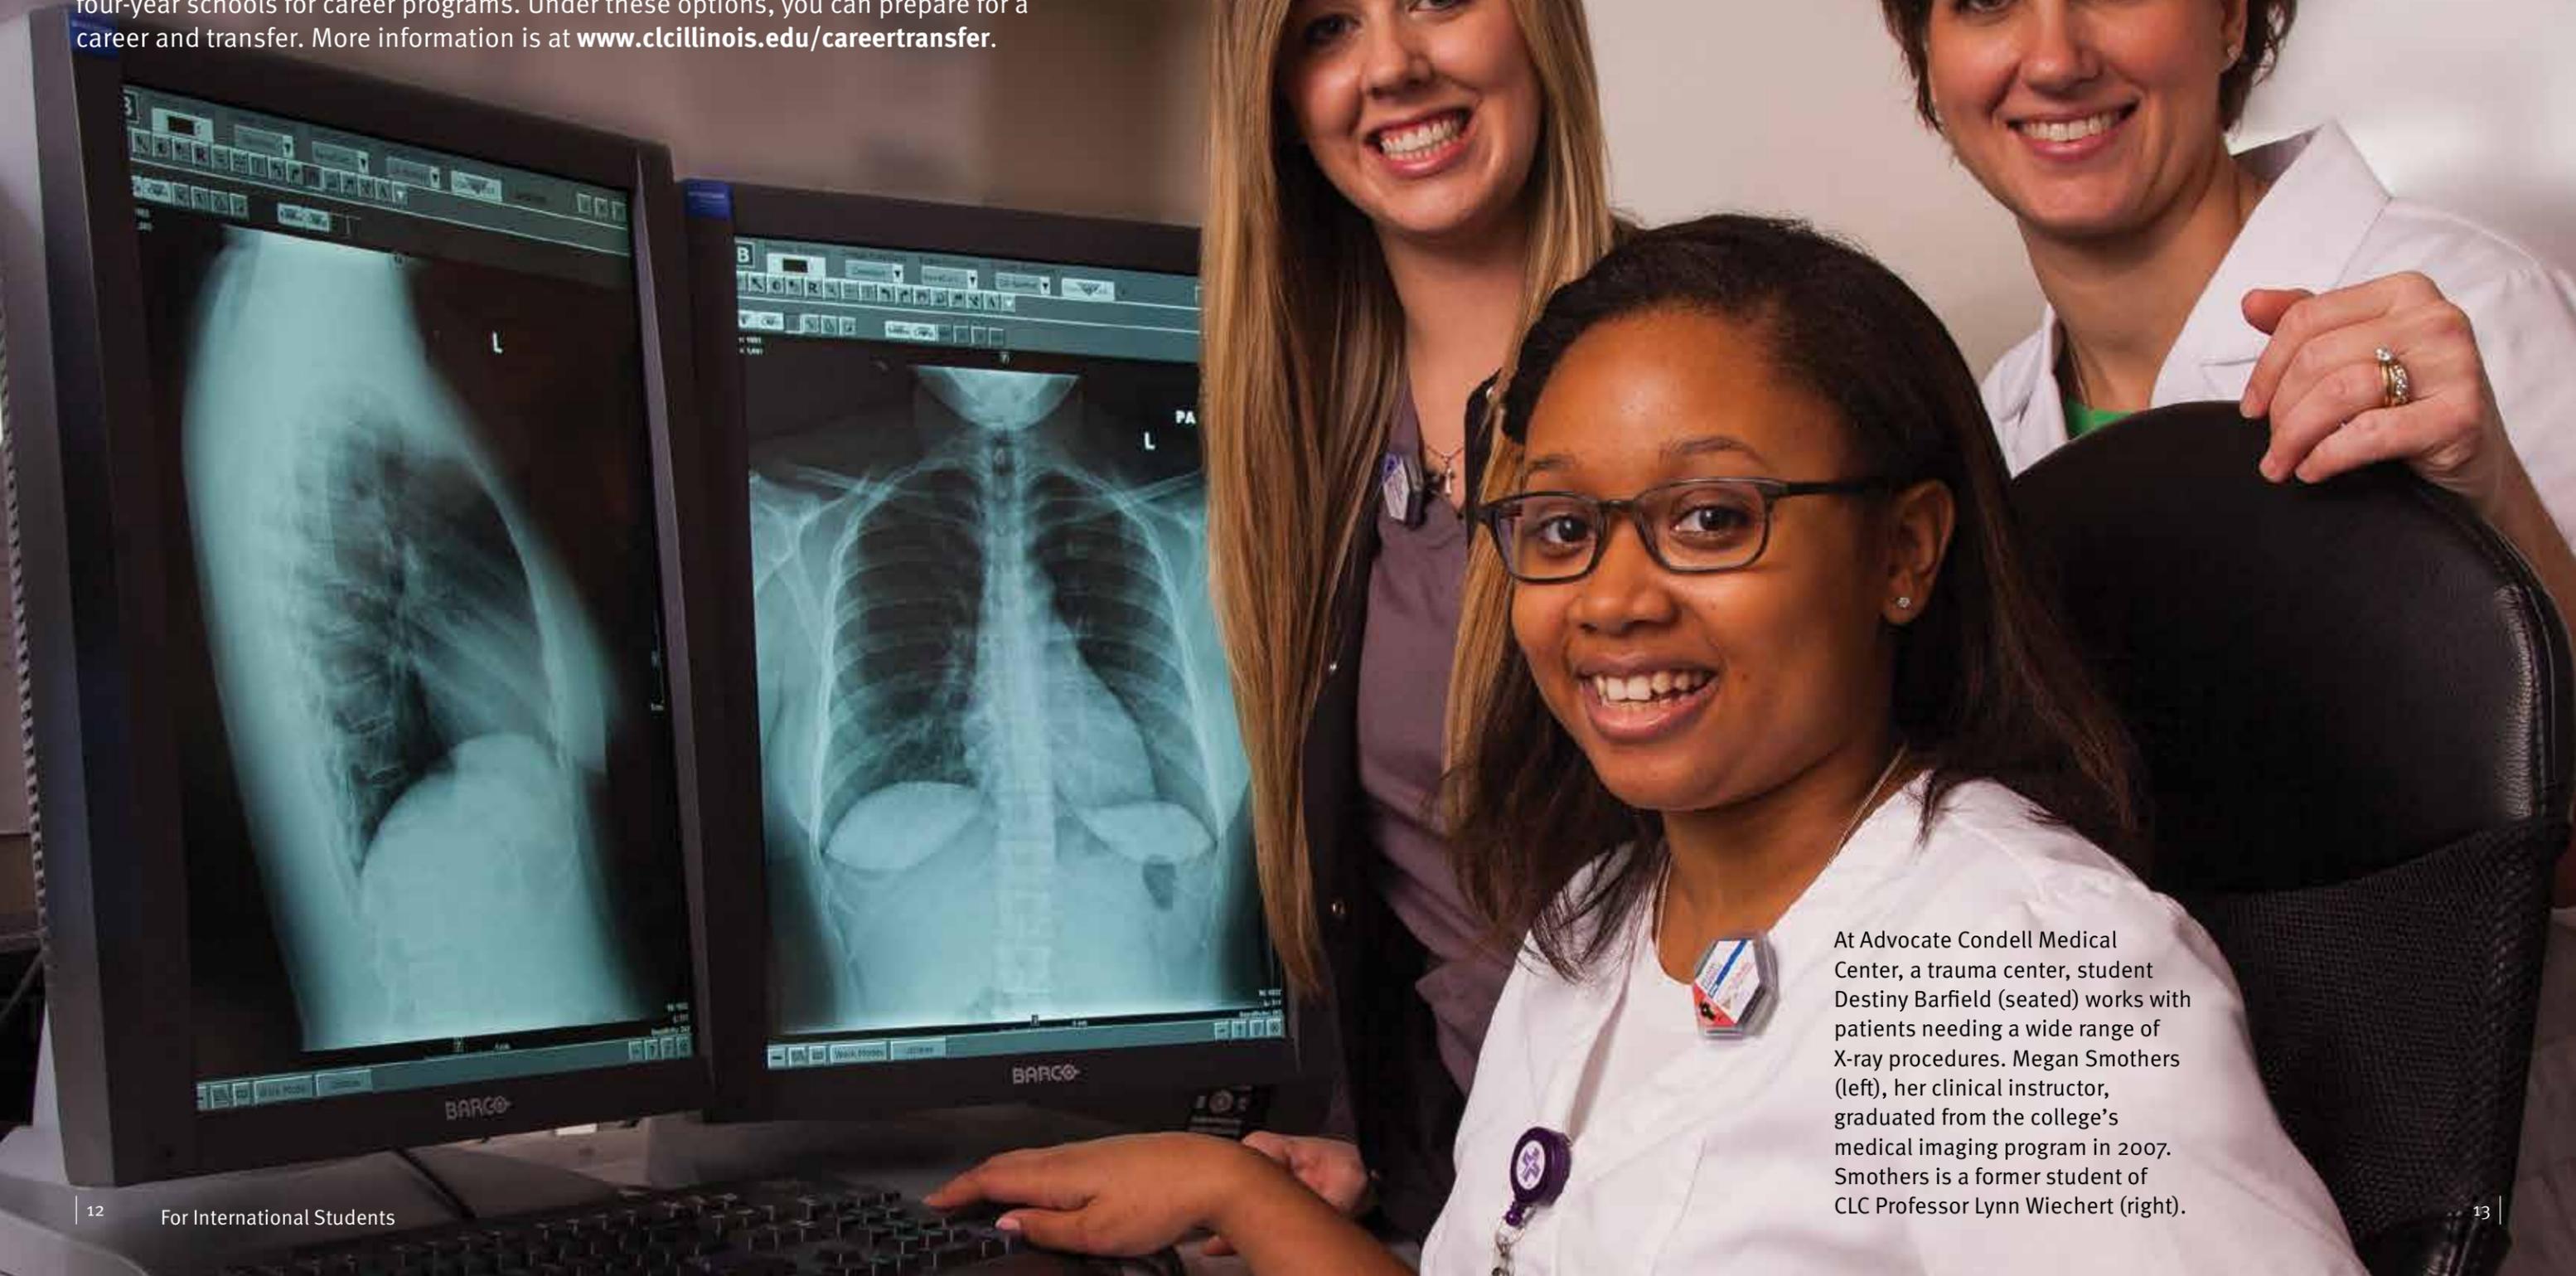

Dental Hygienist	\$74,400
Engineering Technician	\$59,900
Paralegal	\$47,900
Heating, Air Conditioning and Refrigeration Technician	\$55,800
Automotive Service Technician	\$40,300
Computer Support Specialist	\$50,400

Source: www.careerinfonet.org

*Median annual salaries based on data from the U.S. Bureau of Labor Statistics and the Illinois Department of Employment Security.

Solid career skills and transfer

Associate in Applied Science degree programs provide the specific skills and knowledge to prepare you for immediate employment after graduating. Though these programs weren't developed for transfer, a number of their course credits may transfer to four-year schools. Additionally, CLC has developed more than 30 articulation agreements with four-year schools for career programs. Under these options, you can prepare for a career and transfer. More information is at www.clcillinois.edu/careertransfer.

At Advocate Condell Medical Center, a trauma center, student Destiny Barfield (seated) works with patients needing a wide range of X-ray procedures. Megan Smothers (left), her clinical instructor, graduated from the college's medical imaging program in 2007. Smothers is a former student of CLC Professor Lynn Wiechert (right).

Connect | Experiential Learning

Combining classroom study with real-world experience is very powerful. That's why we offer internships, co-ops and service learning opportunities that let you learn by doing. In these experiences, you earn college credits for a paid or un-paid job or volunteer assignment that provides career-related, supervised experience.

Students in the Hospitality and Culinary Management program manage operations and prepare the food served in the Grayslake Campus Prairie restaurant.

Connect | World

CLC field study trips have destinations around the world. Past locations have included China, India, Japan, Peru, Costa Rica and countries across Europe. To learn about upcoming study trips, visit www.clcillinois.edu/fieldstudy.

See the Great Wall of China, hike the breathtaking Appalachian Trail or explore medieval Prague. You can have experiences like these as a CLC student through our field study program. We offer both semester-abroad opportunities and short-term study trips (generally two weeks) for college credit. Our overseas study programs are offered through our award-winning Center for International Education.

Connect | Academic and Career Planning

You will begin at CLC by participating in a new-student orientation where you will meet one-on-one with an advisor to talk about your academic and career goals. You'll leave your session with an academic plan for your courses, and if you are undecided about your career goals, you'll be referred to a career counselor who can help you explore options.

You'll have access to career assessment tools, employment and career trend information and advice on conducting a job search, developing a resume and interviewing. You can even enroll in a 1-credit-hour course on career exploration (PDS 122).

Throughout your studies at CLC, you will have opportunities to meet with a counselor or advisor to review and revise your academic plan and your career goals.

Connect | Academic Support

We show our commitment to your success by offering a full menu of support services to help you achieve your full potential.

Want to build academic confidence?

Through our Coaching for Academic Success program, you can get a coach to help you define your goals, build confidence and connect to tutoring and other services.

Need help with math or writing courses?

Walk-in help is available through our Math and Writing Centers.

Want to be part of a study group?

In our twice-weekly Study Zones, you'll be able to study with other students and get help from tutors.

Worried about being lost in the crowd?

It won't happen. Our average class size is about 18 students.

Want help with a disability?

We offer classroom accommodations tailored to your needs through our Office for Students with Disabilities.

Connect | Campus Life

At CLC, you'll find a jam-packed roster of ways to get involved, including clubs, sports, academic teams, performing arts and community service.

There are lots of opportunities to make friends, have fun and learn about yourself.

Join: Social, cultural and volunteer clubs and organizations

Work on an environmental clean-up project. Be an on-air voice for Lancer Radio. Test your ingenuity in an Engineering Club contest. You'll find many ways to explore your interests, have fun and make friends on campus in our 40-plus student clubs and organizations.

Perform: Theatre, dance and music

Love to sing, dance, act or play an instrument? You'll find many performance opportunities at CLC. Play in one of five instrumental groups or sing in our choirs. Explore your range as a dancer in our Prairie Spirits Dance Troupe. Do it all in our professional quality performing arts building.

Compete: Athletics/cheer squad

Love the thrill of athletic competition? Become a CLC Lancer. CLC has 12 athletic teams that have won many titles at the conference, regional and national levels.

Challenge: Fitness Center

Stay or get in shape in our free-to-students Fitness Center, gym and tennis courts.

More information on athletics and campus life is at www.clcillinois.edu/campuslife.

Men's basketball and other CLC sports teams compete in the Illinois Skyway Intercollegiate Conference. Many of our athletes have gone on to compete at four-year colleges and universities.

Connect | Scholarships

CLC awards about \$19 million in financial aid, scholarships, loans and grants each year, and about one in four of our domestic students receives some form of aid.

CLC awards scholarships funded by the CLC Foundation. The four possible scholarships for F-1 status international students are:

- Infantino-Percak Family Memorial
- Richard and Annette Galla
- Jim Reinemann Memorial
- Susan Smith International Student Scholarship

For more information about scholarships, please visit www.clcillinois.edu/scholarships.

Connect | Facts

Technology: Free wireless access at all three campuses; open computer labs for student use on all three campuses.

Accreditation: Accredited by the Higher Learning Commission and a member of the North Central Association, 230 S. LaSalle St., Suite 7-500, Chicago, Ill. 60604-1411. To contact the Higher Learning Commission, call (800) 621-7440.

Library: Collection includes more than 100,000 books, 400+ periodicals, 50 databases.

\$163 million Investment in Sustainable Campus Master Plan: Between 2014-2019, we are investing \$163 million in enhancing student services offices, classrooms, laboratories and student gathering spaces. Learn more at www.clcillinois.edu/masterplan.

CLC Statistics

98% student satisfaction rating

Average class size: **18**

International enrollment: **119** students from **46** countries

25% of students receive financial aid

\$37,585 average salary of A.A.S. degree recipients one year later

3 honors societies (Honors Scholars, Honors, Phi Theta Kappa)

10 performance groups

5 theatre productions each year

12 sports teams

40+ student clubs and organizations

Grayslake Campus

- At 269.7 acres, our largest location features lush natural areas.
- Home to the greatest number of academic programs.
- Three-fourths of students take most of their classes here.
- 2015-17 Under Construction: A new three-story science building will open in 2016, as well as a new café. Other renovations and a one-stop student services center will open in 2017.

Lakeshore Campus (Waukegan)

- Urban environment in three downtown buildings on Genesee Street.
- Offers all courses for Associate in Arts degree.
- Home to three healthcare programs: dental hygiene, medical assisting and phlebotomy.
- Construction of a new campus facility is set to begin in 2017, consisting of renovations to existing buildings and a new six-story building with Lake Michigan views.

Southlake Campus (Vernon Hills)

- Site of CLC's newest building, a spacious light-filled facility on Milwaukee Avenue.
- Offers all courses for Associate in Arts degree.
- Home to the Health and Wellness Center and massage therapy program.
- A new chemistry lab will be constructed in 2015

Connect | Recognized Quality

CLC is proud of these distinctions:

- **International Studies program received Andrew Heiskell award** for innovation from the American Association of Community College's Institute for International Education.
- **Received prestigious grants from the National Science Foundation** for a program providing scholarships and academic support to encourage careers in engineering.
- **Selected as a partner for the University of Illinois' Engineering Pathways program**, guaranteeing qualifying students admission to the College of Engineering.
- **Received Gold Level Award from the Illinois Campus Sustainability Compact** for integrating sustainability into daily operations and campus culture.
- **National Clearinghouse data show students go on to study at major universities across the country**, including Dartmouth, Harvard, Yale, Northwestern, the University of Illinois and more.

Professor Robert Remedi (in yellow shirt) collects specimens with students in a biology class. Remedi was named the Illinois outstanding full-time faculty member of the year in 2011.

Connect | Admission

CLC has an open admissions policy, but academic programs have minimum competency requirements, course prerequisites and, in some cases, program-specific admissions requirements. For information on requirements and how to apply and become a CLC student, visit www.clcillinois.edu/admission.

Enrollment Demographics:

- 52% Female
- 62% Under age 25
- 39% Minorities (8% black, 25% Hispanic, 6% Asian/other)
- 74% Attend part time
- 70% Enrolled in bachelor's degree preparation program
- 27% Enrolled in a career preparation program

Data for the 2015 Spring Semester

Connect | Next Steps

Application Process

- CLC Student Information Form
- International Student Application
- Proof of high school/secondary school completion
- Proof of financials/official bank letter
- Copy of passport showing legal name
- Passport photo

The packet containing this checklist and forms is available at www.clcillinois.edu/international.

When to apply

Our semesters are 16 weeks long. Classes begin in late August and mid-January. Application deadlines are July 1 for fall semester and November 1 for spring semester. New students may begin their studies during fall or spring semester (August or January).

Who To Contact

CLC has three full-time staff members who are dedicated to recruiting and serving students from all over the world. They are very friendly and will do everything they can to make your transition to the United States as easy as possible.
