## Renovations are underway—but there's still lots going on

Many improvements will be under construction on the Grayslake Campus during the 2015-16 academic year as part of a \$168 million project to update our student services and academic facilities.

As work proceeds, expect to see construction equipment, relocated offices, temporary barricades and relocated entrances. Even so, all the fun activities, services and programs described in this booklet will be available. Though there may be a little construction dust, you'll still find lots of excitement and energy.

Don't miss out.
