WHAT IS THE PROGRAM?
Gas/electric hybrid engines…rear-vision cameras…satellite radio. Today’s cars and trucks are more high-tech than ever, and today’s automotive technician uses a laptop computer as much as a set of wrenches. In CLC’s Automotive Technology program, you will learn the high-tech and traditional mechanical skills you will need for an in-demand, successful career working in an auto dealer’s service department or other repair shop. The program is Master Certified (MAST) by the ASE Education Foundation. Depending on your preferences, you can advance in the field in several ways, becoming a master technician, service department supervisor or even the owner of your own shop. Classes will be hybrid (in-person at the Grayslake Campus and online via Zoom).

HOW MUCH WILL I MAKE?
Current average salary for an automotive service technician is $48,010 per year (or $23.08 per hour) in Lake County, IL and the surrounding region.∗
