WHAT IS THE PROGRAM?
Re-program your future by becoming a CNC Technician or Machinist. CNC Technicians program and operate advanced manufacturing equipment that produces a wide range of tools, parts and products. Machinists are skilled workers who set up and operate machinery to produce precision tools and instruments. Both of these careers come with great starting salaries, room for advancement and exciting futures! Classes will be in-person at the Grayslake Campus or the Tech Campus.

COURSES OFFERED (2022 SPRING SEMESTER):
