May 2021

Dear Friends,

In its aspiration to be an innovative workforce and education solution provider for Lake County, College of Lake County is listening to community members, employers and K-12 partners. What we've heard is leading us to build better systems for you to learn about, gain access to and navigate our many resources. Notably, the Community and Workforce Partnerships team was assembled and set a vision to be the hub for providing premier pathways to education, cultural enrichment and workforce prosperity.

Community partnerships are integral to achieving this vision. By expanding relationships with small businesses, elementary and middle schools, nonprofit organizations, municipalities, hospitals and chambers of commerce across our region, we are building a network that can respond to the needs of *all* Lake County residents. If we are to realize equitable change in our communities, the inclusion of many voices to inform our work and help us connect you to valuable pathways is an important part of our journey.

This summer we hope you find something at CLC that helps you, your family or your business grow and prosper. Have an idea or a request? Join us in partnership and lend your voice...we're listening.

With appreciation,

Ali O'Brien

Dr. Ali O'Brien

Vice President, Community and Workforce Partnerships

CHANGING *paths.*

ENHANCE YOUR PROFESSIONAL SKILLS, CAREER OR BUSINESS

- Benefit from results-oriented courses, workshops and training for Lake County's businesses and workforce
- Enhance your current job skills or gain new ones
- Engage in training, assessments and development for yourself or your employees
- Connect your small business to advising, training and tools to start, grow and succeed

Delivered in-person on our campuses or at your location or online by subject matter experts.

ENRICH YOUR LIFE

Lifelong learning opportunities for all ages:

- Summer camps for kids and teens in grades 1-12
- Immersive learning experiences for adults in creative arts, dance, photography and more
- Real-life "adulting" skills classes for young adults

Explore the variety of flexible learning options we have to offer, because learning never stops.

CHANGING *experiences.*

WE'VE BEEN LISTENING!

In response to your feedback, we are taking steps to change our registration process for noncredit courses. The work has begun to develop a new system that will improve our existing process and provide ease to those we serve.

While work is still underway, we are excited about this upcoming advancement and look forward to achieving a more enhanced user experience.

Stay tuned for updates!

Students attending in-person classes are required to properly wear a face mask and to follow physical distancing guidelines. Access points are limited on all three campuses. Visit www.clcillinois.edu for detailed campus guidelines.

These classes will plan to run unless other determinations are made based off of the current health climate and pending regulations.

Affordable and conveniently scheduled courses taught by industry experts in person and online!

Visit www.clcillinois.edu/professional/onlineclasses and browse over 500 classes in a variety of topics and formats; online education may be the right choice for you. Complete a course whenever and wherever the internet is available.

Arts, Entertainment, and Hospitality

Are you the person that always knows the best restaurants and events in Lake County? Come be part of the action! Whether you dream of working at a local brewery, creating fine dining meals or anything in between, these courses may be for you.

SERVSAFE FOOD PROTECTION MANAGER CERTIFICATION

This course will prepare you to be certified or re-certified through the National Restaurant Association ServSafe Foundation. You will cover all major sanitation points, including how food becomes unsafe, proper precautions, personal hygiene, food contamination, regulations and inspection standards. The nationally recognized ServSafe Exam is given as part of this course. Upon successful completion of the ServSafe Exam, you will receive a copy of your ServSafe Food Protection Manager certificate, which is nationally recognized.

Note: As of January 1, 2018, the Illinois Department of Public Health will no longer require a state FSSMC certificate.

A textbook is required and may be purchased in the CLC Bookstore prior to class. **Note:** It is highly recommended that students read the textbook and review chapter quizzes prior to class in order to prepare for the certification test at the end of the course.

GOOGLE IT SUPPORT PROFESSIONAL CERTIFICATE

IT Support is one of the fastest growing fields in the United States. This new, innovative program will prepare you for an entry level job in approximately eight months, while giving you the flexibility to work at your own pace. No previous experience with computers is necessary, just a desire to learn.

Featured Online Course

Fundamentals of Supervision and Management

Master the basics of business by learning the language of management. Develop skills in time management, delegation, team motivation, problem-solving and conflict resolution so you can accomplish your job more effectively. <http://bit.ly/SupervisionAndManagement>

Questions regarding online classes? Turn to page 46 for a list of FAQs.

Interested in IT? Contact CLC's Career and Job Placement Center at cjpc@clcillinois.edu to learn more about the IT pre-apprenticeship bridge program where you could participate in a paid learning experience.

Project Management

Have you been putting off obtaining your project management certification? This summer is a perfect time to get your certification and we can help you with these online Zoom course options.

PROJECT MANAGEMENT PROFESSIONAL SERIES

Interested in getting your Project Management Professional (PMP®) certification? Completion of these three classes will provide you with the 35 professional development units (PDUs) required to obtain your PMP Certification and prepare you for the PMP exam. With these dynamic courses, taught by Andy Kaufman and Barrett Kaufman, certified PMP trainers, you can make this the year that you become a certified PMP.

Monday and Tuesday, August 16-24
6- 9:30 p.m.
4 Sessions
Online Live Zoom
\$525 A. Kaufman

Are you a licensed PMP?

PMP holders need to earn 60 professional development units (PDUs) over three years to maintain the credential. If you are looking for a convenient way to refresh your skills and earn PDUs, sign up for Essentials of Project Management and Advanced Project Management and earn 14 PDUs for each section. Call (847) 543-2990 for more information.

Note: Experience, education and exam requirements are needed to obtain PMP certification in addition to the project management education fulfilled by the three courses offered here. For more information, visit www.clcillinois.edu/professional/projmgmt

CLC is committed to the safety and security of online instruction and is constantly adapting to offer the best experience for all users. To help ensure security, a password to enter the Zoom session will be provided to assist with these measures.

Lean Six Sigma

About Your Instructors

PMP® is one of the most sought-after certifications in the world. The training is universal, applicable across industry and location. Just look to the Kaufman family for two prime examples.

Andy has managed and led business teams for over thirty years. He works with leaders of multinational corporations and the United Nations to improve their ability to lead and deliver. His son, Barrett, founded a film production studio and has managed projects from pre-production to distribution over the past decade.

Both Barrett and Andy bring their unique experiences to the classroom, preparing individuals for the Project Management Professional and Agile Project Management Certifications. Join them this summer to further your own ability to lead and deliver.

Attend a virtual information session on Tuesday, May 11 at 6 p.m. to learn more about the Lean Six Sigma Certification. The session is free, but pre-registration is recommended. Visit www.clcillinois.edu/wpdi/infosessions to pre-register.

LEAN SIX SIGMA CERTIFICATION WORKSHOP

Join us for the Green Belt 2.0® Lean Six Sigma Certification Workshop. This five-week course, taught by certified Black Belts, will give you the thinking, methods and tools needed to solve problems and stay on top of change. Gain access to dozens of videos and hundreds of practice exam questions. The perfect complement to your PMP.

Participants will learn:

- The Green Belt body of knowledge in a form that is immediately useful at work.
- How to spot and solve problems, working in teams and individually.
- The best methods for problem-solving, continual improvement of operations and personnel development.

Class fee includes downloadable digital materials, practice exams, final exam grading, project review and certification diploma. Participants will need a computer with internet access and MS Excel 2010 or newer. Must know Excel basics and charting. Students will meet for the live webinars on the designated dates at the scheduled times.

9216 PPRO 92-001
Monday and Wednesday
June 7 to July 14
6- 9:30 p.m.
10 Sessions
Online Live Zoom
\$1549 F. Pulgar-Vidal

About Your Instructor

In over twenty years of consulting experience, Francisco Pulgar-Vidal has advised executives and frontline associates in effective design, production, distribution, sales and customer support. He has now certified thousands of professionals in organizational methods and is ready to help you improve your work through Lean Six Sigma.

Real Estate

"I've learned SO much from Wayne and am eager to get through the exam. He is such a great teacher and has the kind of passion for real estate that is contagious and motivating." – Manuela L.

Not only has Wayne Paprocki achieved financial success working in the real estate industry, he has been nationally recognized for sharing his talents through education and mentorship. His vast experience enables Wayne to teach students everything they could want to know about how to succeed in real estate. Learn selling strategies through Wayne's captivating tales this summer!

BROKER PRE-LICENSING TOPICS: CLASSROOM

This 60-hour course, with the Broker Pre-Licensing Applied Principles 15-hour course (PRLE 3), fulfills the new education requirements for obtaining an Illinois Real Estate Broker license. You are required to attend all scheduled online sessions which include: introduction to the license law and real property; basics of agency, seller and buyer relationships and counseling; local, state and federal laws effecting real estate; brokerage, marketing and advertising; market analysis and appraisal; financing, contracts, independent contractor and employee status, occupational disciplines and business planning.

REAL ESTATE HOME STAGING 101

First impressions matter, especially when it comes to selling real estate property. Through this home staging class, you will learn techniques to prepare your property to be the most desirable listing on the market. Learn what catches a buyer's eye and what will set you apart from the competition. Realtors, homeowners, investors and builders will benefit from our instructor, who has helped homes sell quickly with her unique ideas and strategies.

9260 PRLE 41-001

Wednesday, June 30
1- 4 p.m.
1 Session
Grayslake Campus, E125
\$69 J. Delacluysse

BEAUTIFYING A HOME WITH THE RIGHT COLORS

For a home to look its best, it should have paint colors that complement the finishes in the home. Studies have shown that the wrong paint colors are one of the top five reasons that people will not be interested in a home. Many people take a "one color fits all" approach to selecting paint colors, but every home is unique and needs just the right colors to create maximum appeal. Whether you are buying or selling a home or simply redecorating, this course will help you to select paint colors that bring out the best in the home. A book is required and can be purchased from the instructor for \$10 in class.

9261 PRLE 42-001

Wednesday, July 7
1- 4 p.m.
1 Session
Grayslake Campus, E124
\$69 J. Delacluysse

CLC is committed to the safety and security of online instruction and is constantly adapting to offer the best experience for all users. To help ensure security, a password to enter the Zoom session will be provided to assist with these measures.

Education and Social Sciences

Designed for those looking to keep up-to-date on current trends in teaching or build on their vocational skills, these courses are perfect for current educators and those that love to learn.

Teacher Education

FORENSIC CLASSROOM: ENHANCING STEM PROFICIENCY WITH DETECTIVE SCIENCE

Forensic Classroom is a five-day workshop program for educators who want to use crime scene investigation content material to engage their students in the science curriculum. This hands-on program will help educators understand the tools, techniques and scientific principles of crime scene investigations.

Forensic Classroom goes beyond simply providing information about criminal investigations. The course material is designed to assist teachers in meeting the National Science Education Standards for developing meaningful, high-interest, inquiry-based classroom activities involving real-world problem solving.

During the course of this workshop, participants will draw on the practical knowledge and abilities of experienced law enforcement officers in order to become familiar with content area material that will captivate the imagination and interest of their students. Participants will have the opportunity to work with and learn to use various crime scene processing equipment, be exposed to real-life crime scene examples, and will learn practical exercises that they can immediately take back to the classroom.

While developed to assist with programs at the high school level, any teacher using crime scene investigations as a means of educating their students will benefit from this workshop.

9092 PTCH 51-001

Monday to Friday / July 19-23 / 8 a.m. to 4:30 p.m. / 5 Sessions / Grayslake Campus, E124

POLICE EVIDENCE TECHNICIAN BASIC

Law enforcement officers will develop CSI skills which will give them the knowledge and practical experience to do every forensic and evidence technician investigation in a professional manner. Topics include photography of crime scene and evidence, diagrams and field sketches, crime scene processing, trace evidence, bloodstain evidence, crime scene management and fingerprint processing. Special emphasis will be given in: burglary, theft, fire and arson investigations, death and sexual assault investigations, impression evidence, macro photographic techniques, tool and bite marks, firearms and report writing. Students must bring departmental camera, tripod and flash. This course is certified and reimbursable through the Illinois Law Enforcement Training and Standards Board for Illinois officers.

The Evidence Technician class is designed for law enforcement professionals; however, we have opened seats to college students in forensic science studies, high school forensic science teachers and insurance or fire investigators. Requests to attend will be reviewed and approved on a case-by-case basis. Contact (847) 543-2990 or professionalworkshops@clcillinois.edu to determine eligibility.

WELDING FOR HOBBYISTS

Take your creativity to the next level! This course allows artists, general fabricators, hobbyists and anyone interested in applying the fundamentals of welding to their projects or profession. Students will practice the four primary processes of arc welding and learn which best suits their desired application. The course will begin with an overview of safety and equipment operation. Each week will feature instruction and practice in each of the four welding disciplines. Students will also learn which equipment and processes are best to continue their practice at home.

Safety equipment is included in the cost of the course. Students must furnish their own pair of work boots and wear appropriate welding work attire, such as long pants, in the lab. Course takes place on the Lake County Tech Campus, located near the Grayslake Campus of CLC.

Need to buy a textbook? Visit www.clcillinois.edu/bookstore for hours and information.

If you're seeking a career in the health sector or want to earn a fitness certificate, our online training programs can help you start or advance your career in helping people lead healthier lives. You can start today, and work at your own pace within the next 6-12 months to complete training in fields such as: Medical Billing and Coding, Group Fitness Instructor or Medical Interpreter.

NEW! Online courses specifically designed for those in the health sciences. With topics related to compliance, reporting and regulations, these trainings are self-paced and available to fit your busy schedule. Check the Professional Development's Online Learning list for more details. www.clcillinois.edu/professional/onlineclasses

Questions regarding online classes? Turn to page 46 for a list of FAQs.

Pharmacy Technician Training

You can begin your career in healthcare as a Pharmacy Technician. Pharmacy Technicians are in demand and job growth will continue to increase 12 percent by 2026. Technicians work in a variety of settings, that include pharmacies, hospitals, clinics, assisted living facilities, retail stores and mail-order pharmacies. They are responsible for receiving and filling prescriptions under the supervision of licensed pharmacists as well as performing duties such as maintaining patient profiles, answering phones and working the register. This program will provide you with the knowledge and skills for an entry level position and prepare you to pass the national certification exam required of all pharmacy technicians in the State of Illinois. Textbooks are required and are available for purchase in the bookstore.

Program requirements: High school diploma or G.E.D, basic 9th and 10th grade math (algebra), Proficiency in English (verbal and written communication skills), no prior criminal record, 18 years old (some exceptions), hand to eye coordination and finger agility.

This is an online course that requires using Canvas and Zoom.

Small Business Recovery and Growth starts with the Illinois Small Business Development and International Trade Center

Explore business solutions and training and find new opportunities for your business to start, grow and succeed. Whether you're starting a new business, positioning your company for growth or seeking to expand globally, we can help. Our business services include:

- No-cost, confidential, one-on-one business advising in English or Spanish with noted experts
- Assistance developing business, marketing and financial plans
- Information about federal, state and local loan programs
- Support in securing commercial loans with local providers
- No-cost one-on-one strategic export advising
- Access to vital business resources
- Interactive, no-cost and low-cost workshops
- Advising and workshops are offered virtually until further notice

Connect with us. We are your partner to success.

Schedule a no-cost, one-on-one advising session with one of our small business advisors or with our International Trade Specialist.

(847) 543-2033

IllinoisSBDC@clcillinois.edu

www.clcillinois.edu/sbdc-itc

INTERNATIONAL TRADE CENTER

The Illinois Small Business Development & International Trade Center is funded in part through a cooperative agreement with the U.S. Small Business Administration (SBA), the Illinois Department of Commerce and Economic Opportunity, and the College of Lake County. Reasonable accommodations for persons with disabilities will be made if requested at least two weeks in advance. Please contact the center at (847) 543-2033 or TDD: (847) 223-0134.

SBDC/ITC continues to inspire, educate and connect.

Significant Investments using CARES Act funds have been and continue to be applied to skill building programs, one-on-one business advising, virtual training and networking platforms provided at no cost to Lake County businesses! Contact us today to take advantage of these valuable resources or visit our website www.clcillinois.edu/sbdc-itc often for an ever-changing landscape of programs and services, which businesses have come to depend upon.

We appreciate your referrals!

Please share our contact information with a friend, colleague or family member. We can provide them assistance developing business, marketing and financial plans and information about federal, state and local emergency loans and other resources available to small businesses.

Additional services and tools we provide to help small businesses in Lake County

Training

Benefit from a variety of no-cost virtual training programs focused on business recovery and growth.

Start with our foundational program - Starting Your Business in Illinois

This workshop provides the basic elements for starting a successful business such as choosing a business structure, determining tax requirements, marketing and selling and much more. Get answers to the most frequently asked questions!

Dozens of other workshops are available on important topics including:

- Business planning and startup
- Business growth and development
- Exporting
- Resiliency and continuity planning
- Government contracting
- State and federal grants
- Marketing and sales
- Human resources and legal
- Technology and software
- Accounting and finance
- Commercial funding

Advising

Engage in no-cost one-on-one sessions with business experts to solve problems and leverage growth opportunities.

Our professional business advisors have expertise in a variety of areas such as:

- Startup planning
- Strategic planning
- Finance and lending
- Accounting and bookkeeping
- Financial modeling and ROI analysis
- Marketing and sales
- Human resources and organization development
- Supply chain
- Government contracting
- E-commerce
- Exporting

Tools

Utilize our no-cost business tools to access an array of resources for your success.

Connect to success resources, gain valuable information about the business environment and enhance job skills with the following tools:

IBIS World - allows businesses to conduct market research and gain access to industry reports and business statistics.

TAD (Training, Assessments and Development) - provides businesses with a platform to conduct employee skill assessments, create development plans and launch training programs.

Biz Hub - provides businesses with the ability to connect to success resources, share knowledge, participate in events and become a part of the local community.

Visit www.clcillinois.edu/sbdc-itc to see workshop details and register, schedule an advising session or learn more about our available tools and resources!

Lake County Small Business Highlights

Did you know that small businesses account for over 99% of all the businesses in the United States?

Right here in Lake County, there are approximately 20,000 businesses; about 17,000 of them have 19 employees or less and 12,000 have five or less employees. The share of businesses that are startups consistently hovers around 8% or 1,600. Not surprisingly, there are challenges to small business success. Thankfully, the Illinois Small Business Development & International Trade Center at College of Lake County knows what it takes to achieve success and is here to help you navigate the process.

Export: Ready, Rebound, Recover

Illinois SBDC International Trade Center

Lake County has about 1,700 export businesses, is second in the state for export revenue and accounts for about 10% of total Illinois exports.

International Trade Center Services:

One-on-one export advising is available in the following areas:

- Assess company export readiness
- Develop an export business and international marketing plan
- Customize export market research report
- International shipping and logistics
- International payment and export loan program
- Assistance with export regulations and documentation
- Support Schedule B classification
- Foreign trade missions, international tradeshows and trade leads
- Export grant opportunities
- EXIM credit insurance assistance
- Export workshops, in-house and virtual training, seminars and forums

The Illinois SBDC International Trade Center provides state-of-the-art, customized export solutions supporting small businesses to successfully enter and thrive in a global market.

Schedule a one-on-one export advising session – at no cost – with our International Trade Specialist, Kevin Kim. Call (847) 543-2306 or email jkim16@clcillinois.edu. Note: All export advising sessions are conducted virtually until further notice.

INTERNATIONAL PAYMENT METHODS

Importers and exporters need a working knowledge of International Payment Methods to successfully conduct business across international borders. In addition to the familiar prepayment and open account, an understanding of documentary payment terms is essential. This workshop will focus on documentary collections and commercial letters of credit but will include some best practices for prepaid and open account transactions, as well as the role of Incoterms in structuring international payments. Active Q & A is encouraged!

Silent Cinema Fun

The Silent Cinema classes are Family Friendly classes for adults but are also suitable for students 10-17 who enroll with a registered parent or other authorized adult through the Explore youth program. Contact CPEInfo@clcillinois.edu or (847) 543-2980 for more information.

DISCOVERING THE SILENT CINEMA

Long before the giant blockbuster films of today, there were movies that featured names like Charlie Chaplin, Mary Pickford and Buster Keaton -- great stars whose audiences never heard them speak a word! They were the pioneers of the early cinema and their silent films were the roots of today’s cinema. Music played an important part in silent films. Experience the mighty theatre organ, “the voice of the silent screen” with your host and silent film organist, Jay Warren. Follow the evolution of the cinema in a specially compiled retrospective including rarely-seen 1920s animation. See a complete silent short comedy with authentic theatre organ accompaniment. A Q & A discussion will give everyone a chance to ask questions.

9246 CMSC 32-001

Thursday, July 15
7-9 p.m.
1 Session
Grayslake Campus, CLC TBA

DIGITAL PHOTOGRAPHY: TAKE BETTER PHOTOS (GRADES 6-8)

With the popularity of digital cameras, iPhones and tablets, photography is a skill that is used in the workplace and is used when students build dynamic career portfolios. Grab your favorite digital photo-taking device and learn basic photography techniques, and camera settings. Discover digital photography etiquette, useful photography apps and techniques to make your images stand out. Learn about and apply different lighting techniques used to capture images. Basic computer editing for photography will be covered using free online editing tools. Students will need access to a digital device, such as an iPad, iPhone, computer or Chromebook, to edit photos. (iPhone and iPad will be supported in class). Students who are using a digital camera such as a point and shoot or DSLR, will need to be able to move photos from the camera to a computer or mobile device to edit. A suggestion for a paid special effects app will be made but it is optional. Free apps will need to be downloaded. Students under the age of 13 will have to have parents sign up for these apps. Returning students are welcome. Instructor will work with you to continue your learning.

Explore Camp: Math Skill Building

NEW Camp!

MATH MATTERS: SHARPEN YOUR NUMBER SKILLS (GRADES 1-3)

Are you looking for a class to have your child build upon their math skills and allow them to be outside? In this class, I will work with each individual child to assess what skills we can build upon, so that they are ready for their next school year. We will do accomplish this through making math fun and outdoors – we will do sidewalk scoots (practicing math fact fluency), collecting sticks to create 3D objects to measure, work on analog clocks, and much more! Students should bring a clean beach towel or small blanket each day to use outdoors.

- Introduction to Biology

Visit www.ed2go.com/clc for a complete list and to register. See page 24 for details.

Engage

High school students in grades 9-12 can engage in STEM-based career exploration & innovative experiences. Discover that anything is possible.

CLC is committed to the safety and security of online instruction and is constantly adapting to offer the best experience for all users. To help ensure security, a password to enter the Zoom session will be provided to assist with these measures.

Engage Camp Instruction Options

Summer camps and classes will be offered on campus or online as indicated. On campus classes will plan to run unless other determinations are made based off of the current health climate and pending regulations. Please check www.clcillinois.edu/personalenrichment for updates about alternative delivery/online options.

Students attending in-person classes are required to properly wear a face mask and to follow physical distancing guidelines. Access points are limited on all three campuses. Visit www.clcillinois.edu for detailed campus guidelines.

Online camps are synchronous and held live online via Zoom. Some camps also use Canvas. Students will need a computer, internet and their CLC email and login to participate. See online camp descriptions for more specific requirements for each camp.

Engage Camp: Academic Tools

PLAN. STUDY. EXCEL. HAVE FUN: TOOLS FOR ACADEMIC SUCCESS (GRADES 9-12)

One of our students called it “The Best Study Class Ever” and “Fun Studying”. Rev up your study skills for higher test scores and academic success. Learn how to study at school and still have time for fun. Identify your learning style and maximize its impact on your study approach. Learn note-taking, retention techniques, time management, listening skills, outlining and test-taking strategies. Increase your reading speed and comprehension with practice exercises.

MORE GRAPHIC DESIGN: LAYOUT. PRINT. CREATE. (GRADES 9-12)

Ready to continue to develop your graphic design skills? Apply the concepts you learned in Graphic Design to create more graphic design projects and visual pieces such as posters, social media posts and artistic play with images. Review the art and design elements necessary for graphic design and practice creating your own visual pieces using free online apps. Continue to build your academic digital portfolio. Prerequisite: Graphic Design. You will need access to a computer (not an iPad) that will run the free version of Gravit Designer (www.designer.io). A parent will need to sign up for the free apps on behalf of any student under the age of 13. Supply information will be provided prior to class.

Engage Camp: Nursing and Healthcare

CAMP SCRUBS: NURSING, SURGICAL TECHNOLOGY, NURSE ASSISTING, MEDICAL ASSISTING (GRADES 9-12)

Exploring a career in healthcare? Enjoy this four-day career test drive, complete with hands-on lab experience, alongside professional healthcare instructors in four areas: nursing, nurse assisting, surgical technology and medical assisting. Learn effective strategies to help you reach your career goals. Look the part of a healthcare professional from day one with your own set of scrubs and stethoscope.

Monday: Introduction to Nursing.

Explore nursing concepts and skills in the Simulation Technology Center and Nursing Lab. See how nursing simulation helps students learn in a practice hospital setting, with realistic manikin patients and actual hospital equipment so no one gets hurt. Experience nursing simulation scenarios and asepsis using computerized and static manikins. Learn what asepsis means. Observe and practice nursing skills in a computerized nursing IV game, develop stethoscope skills and learn how naso-gastric tubes work.

Tuesday: Nurse Assisting. Find out what is involved in this ever-growing career field. Learn to help and support patients and other healthcare professionals in a variety of settings.

Wednesday: Surgical Technology.

Explore the surgical equipment and instrumentation a surgical technologist utilizes in supporting the surgical team. See how to set up the operating room for procedures, organize the necessary surgical and sterile supplies and equipment, and maintain the quality, safety, and efficiency of the sterile field throughout the surgery.

Thursday: Medical Assisting. Discover how medical assistants support doctors, patients and other healthcare professionals.

Engage Camp: Photography

PICTURE YOURSELF IN PHOTOGRAPHY: DIGITAL PHOTOGRAPHY BASICS (GRADES 9-12)

With the popularity of digital cameras, iPhones and tablets, photography is a skill that is used in the workplace and is used when students build dynamic career portfolios. Grab your favorite digital photo-taking device and learn basic photography techniques, and camera settings. Discover digital photography etiquette, useful photography apps and techniques to make your images stand out. Learn about and apply different lighting techniques used to capture images. Basic computer editing for photography will be covered using free online editing tools. Students will need access to a digital device, such as an iPad, iPhone, computer or Chromebook, to edit photos. (iPhone and iPad will be supported in class). Students who are using a digital camera such as a point and shoot or DSLR, will need to be able to move photos from the camera to a computer or mobile device to edit. A suggestion for a paid special effects app will be made but it is optional. Free apps will need to be downloaded. Students under the age of 13 will have to have parents sign up for these apps. Returning students are welcome. Instructor will work with you to continue your learning.

Professional Development and Personal Enrichment Online Classes FAQs

- 1. How will I know that a course will be online?**

The course will be listed as an online course when you register and noted in this schedule, as well as on our website. If we need to shift the course to an online format, you will receive an email from CLC staff or your instructor. Check your CLC email regularly for updates. Contact helpdesk@clcillinois.edu for CLC email assistance.
- 2. What technology will I need to complete an online course?**

For all online courses, you will need a reliable internet connection. In addition to a connection and device (it is recommended to have a laptop, desktop or tablet), some courses may require additional software downloaded or a second device to practice on while viewing live instructions. Please check your CLC email regularly for requirements from CLC staff or your instructor.
- 3. What if I don't have internet at home?**

If you are using a computer or device off-campus, use a secure Wi-Fi connection with a strong signal. There are several options for free internet access during this time on the CLC website: www.clcillinois.edu/student-services/tutoring-and-academic-support/succeed/lancers-keep-learning
- 4. What will an online class be like?**

Some courses will be asynchronous, which means you will watch videos and complete activities on your own time while receiving access to an instructor who can answer questions. These courses do not have specific times listed with them and are available 24/7. Other courses are synchronous. In these classes, you and your classmates will be engaged at the same time as the instructor delivers material on a platform like Zoom. There are specific times associated with these courses.
- 5. Who can help me with technology issues?**

CLC is here to help! For technology questions, call (847) 543-4357. Select option #2 and be prepared to answer identity verification questions such as courses taken in previous terms or student ID number. Chat 24/7 is also offered at www.clcillinois.edu/aboutclc/depts/hlp.
- 6. What is Zoom?**

Instructors may use Zoom, a video conference tool, for class discussions. To get started with Zoom, you'll need an internet connected computer, laptop, tablet or phone (ideally with a microphone) and a "meeting ID number" or link from your instructor. You might also want to use ear buds with a mic if you have them. This can help reduce background noise.

CLC is committed to the safety and security of online instruction and is constantly adapting to offer the best experience for all users. To help ensure security, a password to enter the Zoom session will be provided to assist with these measures.

Directions on use can be found on the CLC website: www.clcillinois.edu/student-services/tutoring-and-academic-support/succeed/lancers-keep-learning.
- 7. What is important for me to remember for synchronous online classes?**

Check your CLC email for details about delivery from your instructor. Take a look at the location and time settings on your computer and email accounts. Since courses are delivered at a specific time, it is important that your device reflects the accurate time zone.
- 8. Why are some classes moved to an online format, but others are not?**

We are committed to providing the best quality instruction that complies with industry standards. Some courses, such as those requiring proctored final exams, are not compatible with our online learning methods at this time.
- 9. How do I get the book(s) for my class?**

Reach out to the CLC Bookstore to inquire about current process. Full contact information can be found at www.clcbkst.com
- 10. Who can I speak to if I have further questions?**

For questions about Professional Development courses, email professionalworkshops@clcillinois.edu or call (847) 543-2990. For questions about Personal Enrichment courses, email cpeinfo@clcillinois.edu or call (847) 543-2980.

Steps to Apply, Register and Pay for Noncredit Courses

1. Apply for Admission

- Students who wish to take a Professional Development or Personal Enrichment course need a CLC student ID prior to registering.
- To get your CLC ID, please complete the Student Admission Form at www.clcillinois.edu/apply
- When your application has been processed (usually within one business day), you will be given a CLC myLogin username and temporary password as part of the admission process. If you provided an email address on your application your username and password will be emailed to you in two separate emails. All new students will also receive an official admission letter with their login information via U.S. mail.
- Once you have your username and temporary password, you can set up myLogin.
- If you need login help, contact the ITS Service Desk at www.clcillinois.edu/helpdesk or call (847) 543-HELP (4357).

2. Steps to Register Online

- If you already have your CLC ID, you may register online through the myCLC student portal. After entering your login, select the “Student Center” option to be taken to the student registration system.
- At myCLC Student Portal click on “Search for Classes.”
- Specify the semester and then a subject to view the classes available.
- When you find the specific open class section you want click “Select Class” and add it to your shopping cart.
- Click on “Shopping Cart” check the box next to your selected class and click enroll.
- When you want to add or drop a class, check for a “Success” or “error” message.
- Register for classes at www.clcillinois.edu.
- For more information, visit www.clcillinois.edu/admission.

3. Steps to Register by Phone

- In order to enroll in a noncredit course over the phone, students must have already completed the CLC application and allowed time for processing.
- If information on student account is outdated or invalid, enrollment requests cannot be completed until information is corrected in the system.
- To enroll in a Personal Enrichment course, call (847) 543-2980.
- To enroll in a Professional Development course, call (847) 543-2990.
- Hours of operation for both departments are Monday-Friday, 8 a.m. to 4:30 p.m.

4. Pay Tuition and Fees

- Payment plans are available for noncredit classes.
- Noncredit classes are not eligible for Financial Aid.
- Log into myCLC to view your billing statement and class schedule.
- Paper billing statements are no longer mailed to your home. Email notifications will be sent to your student email once your statement is ready to view on myCLC.
- A billing statement will be sent only on unpaid accounts. It is the responsibility of the student to meet payment deadlines. Again, establishing a payment plan or paying for a class should occur prior to the first day of the class regardless of when the student enrolled in the class.
- Visit www.clcillinois.edu/paying-for-college/how-to-pay for more information.

Withdrawals

- Students who do not attend or do not plan to complete a class they have enrolled to take are responsible for officially dropping the class.
- Students who do not attend or stop attending class, but do not officially drop, will remain responsible for all tuition/fees for the class.
- Tuition and fee refunds will be issued to eligible students based upon the effective date of withdrawal, which is recorded in the system at the time the student drops the class.
- The official deadline for dropping or for withdrawing is defined individually for each class.
- If you find you have been dropped from a noncredit course and you did not request to be dropped, please call the appropriate department for that course (Personal Enrichment or Professional Development).

Refund Schedule

- To check the deadline dates, log on to myCLC and choose “My Class Schedule.” When your schedule appears, click on the calendar icon next to the class, and the deadline dates will be displayed. These dates are also displayed in the schedule of classes.
- If you are not sure of the deadlines, please check with the Office of Registrar and Records at (847) 543-2061.

Refunds for Semester-long Classes

- Withdrawal on or before start of class = 100 percent refund
- Withdrawal before 15 percent of class time passes = 100 percent refund
- Withdrawal after 15 percent of class days pass = no refund

Refunds for One-day and “Series” Classes

- Withdrawal the day before class = 100 percent refund*
 - Withdrawal on or after day of class = no refund
- * Exceptions: Due to the nature of some noncredit courses, cancellations with a full refund are only made up to seven business days before the class. After that no refund is possible.

Senior Citizens

All in-district residents who are 60 years of age or older at the time of registration may enroll in vocational credit courses (1.6 vocational credit) offered by Professional Development at one-half the regular tuition rate with all other fees remaining unchanged. The senior citizen waiver does not apply to Personal Enrichment classes.

Room assignment

Please check your schedule for any updates to room assignments by logging in to MyCLC and checking MyStudentCenter prior to the class start date.

Clery Act

The College of Lake County is committed to maintaining a safe and secure educational environment. This report is available on the CLC Police Department website at www.clcillinois.edu/clery.

Courses start at various dates throughout the term; some courses begin as late as July. Keep this schedule handy and refer to it through August 2021. The information contained within is accurate as of April 2021, but is subject to change.

Students attending in-person classes are required to properly wear a face mask and to follow physical distancing guidelines. Access points are limited on all three campuses. Visit www.clcillinois.edu for detailed campus guidelines.

These classes will plan to run unless other determinations are made based off of the current health climate and pending regulations.

Continuing Education Vocational Credits

Continuing Education Vocational Credits do not apply to any degree or certificate program offered at the college in the academic divisions. Vocational credits will not be added to a student’s academic credit hours or included in the GPA. Students receive a grade of P (Pass) or N (No Pass). Call (847) 543-2990 for more information.

Save lives with defensive driving

Judicial Services offers opportunities to improve your future and the future of your community through courses, workshops and volunteer opportunities.

Partnering with the 19th Judicial Circuit Court for over 30 years, Judicial Services offers the National Safety Council's award-winning Defensive Driving Courses including the "Alive at 25" program. This course is proven to save the lives of young drivers

Distracted driving is on the rise. Motorists of all levels can benefit from learning defensive driving skills. Register for a course today.

(847) 543-2100 (volunteering)

judicialservices@clcillinois.edu

"I just missed being killed by about three seconds."

– Christine Burke praising CLC's defensive driving course.

Christine Burke of Lake Barrington enrolled in our Defensive Driving Course. While driving less than a week later, she used a lesson from the course to narrowly avoid getting smashed broadside by a car that ran a red light.

Burke said that she hesitated at the intersection, recalling a tip she learned in the defensive driving course called "delayed acceleration" waiting two or three seconds before entering an intersection if yours is the first car there. She credits this decision with saving her life.

CHANGING *Talent management.*

INSTRUCTOR-LED | SELF-PACED | BLENDED DELIVERY | COACHING

With a continually changing work environment, preparing your organization with proficiencies is a smart strategy. Whether you want to improve skills or you need to develop a specific group, we have the expertise to provide a solution for small, mid-sized and large organizations.

Upskill Your Business's Workforce

- Identify and close critical skill gaps
- Mobilize talent with the right skills to capitalize on new opportunities
- Upskill and reskill current employees to stay current in their existing roles
- Prepare next generation of workers, managers, leaders and high-potentials
- Customize training crafted to meet your organization's specific needs

CHANGING

communities.

COLLEGE OF LAKE COUNTY MAKING A POSITIVE IMPACT IN OUR STUDENTS' LIVES

Jackson Kasamis is a student of the Personal Success Program (PSP) who has been traveling a very exciting path. Kasamis applied and got accepted to the National Louis P. A. C. E. program, where he's had the opportunity to live, take classes and get employment experience in downtown Chicago. He believes the PSP courses have prepared him well for his educational and professional journey.

"I decided to take PSP classes because I wanted to continue my education. I enjoy the instructors and all of the classes have been interesting. The classes have prepared me for future opportunities – for example, my PSP class in Cashier Training helped me in my summer job as cashier at the Mundelein Park and Rec Aquatic Center and my courses in Financial Literacy and Computer Skills have helped prepare me for my classes at the P. A. C. E. program through National Louis University." – Jackson Kasamis is a student of the Personal Success Program (PSP)

Talal Ahmed is a Cubiscan Data Intern at Crescent Electric Supply Co. He is an Engineering major and interested in pursuing electrical engineering after completing his associates at College of Lake County.

"This internship is a great opportunity for me to learn about electrical hardware products and work with team members to build communication skills." He looks forward to learning as many new skills as he can throughout his internship. I could not have gotten the internship without the help of Career Services Specialist, Mr. Jerry Donahue, who walked me through the interview process and helped prepare me for this internship!"

– Talal Ahmed. Data Intern at Crescent Electric Supply Co.

MANUFACTURING AN ADVANCED TECHNOLOGY CENTER

After evaluating the workforce and economic needs in Lake County, CLC is developing an Advanced Technology Center in Gurnee to meet the needs of our industry partners.

“Most CEOs in the country point to the shortage of skilled workers as the primary barrier to the growth of their companies and it’s no different in Lake County. The solution is to maximize our enrollment pipeline and increase the output of our graduates. Manufacturing is a vital economic engine in Illinois and our county is the second largest manufacturing county in the state based on GDP, producing nearly \$36 billion per year in economic output.”

– Dr. Richard Ammon, CLC’s Dean of Engineering, Mathematics and Physical Sciences

The current timeline for phase one calls for the design process to run through July 2021 and construction to occur from August 2021 to April 2022. This phase will see the development of approximately 59,000 sq. feet of the center, expanding the college’s welding capacity by opening up daytime scheduling and increasing teaching booths from the current 32 to 42. The new industrial maintenance program will also launch in this phase and bring with it additional apprenticeship opportunities. CLC plans to open the doors to students immediately upon completion of construction to provide more career creation and advancement opportunities as quickly as possible.

ECRWSS

RESIDENTIAL CUSTOMER

“My son attended Explore programs each summer for four years and loved all the classes he participated in. There was a variety to choose from based on your child’s interests to enrich them academically. They have wonderful, knowledgeable, and energetic instructors. He now attends the Engage programs that offer classes geared towards his career interest. The programs continue to help him grow academically while having fun and making new friends. He is looking forward to another great summer of engaging programs.”

– Mrs. W., mom of Engage camp student

EXPLORE & ENGAGE with CLC Summer Camps

Looking for the ultimate learning experience for your children this summer? Send them to college.

Camps at the College of Lake County combine fun and academic enrichment.

EXPLORE:

STEAM-based academic enrichment grades 1-8

ENGAGE:

STEM-based career exploration and innovative experiences grades 9-12

Camps begin the week of June 1 online and in-person.
