

## COLLEGE OF LAKE COUNTY AND DEPAUL UNIVERSITY

### The DePaul Admission Partnership Program (DAPP)

If you plan to complete your bachelor's degree by starting at College of Lake County and transferring to DePaul, you are not alone. More than 1,000 undergraduate students begin at a community college and transfer to DePaul every year. And with DAPP, you can make a smooth transition to DePaul, without losing any time or credits.

#### Why choose DAPP?

DAPP is designed to get you on the right track right away and keep you there throughout your college career.

You'll get many benefits from DAPP:

- ▶ Receive guidance from an assigned DePaul transfer admission counselor, either at DePaul or at your community college campus, to help select classes you know will transfer.
- ▶ Lock in the courses to complete your DePaul degree once you select your major.
- ▶ Be eligible for the DAPP Scholarship if you maintain a cumulative 3.0 GPA at the time of transfer.
- ▶ Complete your AA or AS at your community college while planning for a DePaul transfer.
- ▶ Receive special invitations to events exclusively for DAPP students.
- ▶ Best of all, students participating in DAPP who meet the minimum GPA requirements at the time of transfer are guaranteed admission to DePaul University, provided that all current admission standards, policies and procedures of DePaul are met at the time of admission.

#### Who is eligible?

If you have graduated from high school and have completed fewer than 30 semester (45 quarter) hours of college-level credits, you are eligible to participate in DAPP. There is no minimum GPA requirement to apply to become a DAPP student. Students can join even before enrolling at a community college.

To remain in the DAPP program, you must be in "good standing" at your community college. This means that you are eligible to enroll for classes. You also must be in good standing when you transfer to DePaul.

## How to Join

If you are seriously considering transferring to DePaul, you should join DAPP. To get the maximum benefits from DAPP, sign up as soon as possible—even before you enroll in your first College of Lake County course. Just follow these steps:

1. Apply for admission to DePaul as a College of Lake County transfer student before you have earned 30 semester hours at [depaul.edu/apply](http://depaul.edu/apply). As you complete the application, a new window will open asking if you want to participate in DAPP.
2. On the application, indicate when you intend to transfer and your major. You may identify yourself as an “undeclared major.” Notify DePaul if you change your mind about transferring, the date you plan to transfer or your chosen major.
3. Notify your College of Lake County counselor that you are participating in DAPP so they can direct you to the right resources.

## Participating in DAPP

Once you've joined DAPP, you will need to:

- ▶ Meet with your DePaul transfer admission counselor twice a year and follow the academic degree plan created. In addition to keeping you on track, this will allow you to participate in DePaul's ATA process.
- ▶ Maintain continuous enrollment (at least two courses per term, not including summer) at College of Lake County.
- ▶ Maintain a cumulative GPA of 2.0 or higher and remain in good standing. You also must maintain eligibility for admission to DePaul and the college of your choice (the College of Business and the College of Education require cumulative transfer GPAs of 2.5).
- ▶ Submit updated transcripts at the end of each semester to DePaul's Office of Undergraduate Admission. You also must provide a final official transcript from College of Lake County when you transfer.
- ▶ Complete the final steps of the admission process and enroll as a transfer student at DePaul within three academic years of your initial participation in DAPP.

### Questions about DAPP?

Get in touch with an admission counselor today. Please identify yourself as a DAPP student.
