

Transfer Planning Guide – College of Lake County

11/30/17

Admission Guidelines

If you have completed 12 credits of transferable course work you will be considered for admission based on a review of your college records. If you have fewer than 12 transferable credits you may be considered for admission based on a review of both your high school and collegiate records.

Most admitted transfer students have a cumulative GPA of 2.0 or greater on all transferable coursework. Competency in English and mathematics is an important factor in the admission decision.

Please note that some selective programs (Peck School of the Arts, School of Architecture and Urban Planning, College of Engineering, College of Nursing) may have additional requirements for direct admission into their majors. Contact your Transfer Advisor for more information about these requirements.

The **Transfer Planning Guide** is to be used for the completion of **General Education Requirements (GERs)** at the University of Wisconsin-Milwaukee. GERs must be completed by all UWM students, regardless of major.

We encourage students to utilize this guide to plan their coursework for their first and second semesters at the community college.

We highly recommend that students who are interested in transferring contact a UWM Transfer Advisor for more information about additional requirements of specific academic programs.

GERs include two major categories: competency and distribution. **Competency requirements** are designed to assure basic proficiency in oral and written communication (**OWC**) and quantitative literacy (**QL**).

Distribution requirements are designed to provide students with a broad body of knowledge in the areas of diversity, foreign language, arts, humanities, natural sciences and social sciences as a foundation for specialization.

The **foreign language** requirement must be fulfilled by one of the following options:

- Two years of one language in high school with a grade of C or better in the second year of the language.
- Two college semesters of one foreign language from an accredited institution.
- Demonstrate foreign language ability by means of a satisfactory score on an approved placement, proficiency, departmental or other appropriate examination.
- Some majors on campus require more foreign language to meet graduation requirements. Contact your Transfer Advisor to discuss specific major requirements.

A list of possible courses to meet the distribution requirements in diversity, arts, humanities, and sciences are provided on the back side of this handout.
