

EARTH WEEK FOUR

SUSTAINABLE BINGO:

Lake County Scavenger hunt

How to play: Let's play bingo! Cross off each sustainable practice you do this week! If you cross off seven out of nine boxes, turn this sheet into CLC at the Lancer Zone Bookstore! Complete all four Bingo sheets to a win prize, including a reusable straw or bamboo utensils!

...A CHALLENGE...

Use more sustainable modes of transportation (like a bike or the train)

Find CLC's campus farm

Find the closest recycling center to you and learn about it

Volunteer at an organization that focuses on environmental practices

Learn about geothermal energy (you can look at CLC's signs on campus about geothermal energy to learn more)

Carpool with someone

Buy a house plant to help clean the air indoors (ex: bamboo palm, Aloe Vera, mother in law's tongue, and more!)

Visit and learn about the solar field at CLC

Find and hike in the nearest forest preserve

Now that we've brought sustainability into our home...its time to branch out into the community! We can find sustainability all throughout Lake County, especially at CLC's campuses!

CLC Campus Farm!

Did you know CLC has a farm on campus? It's true! And ever year CLC holds a farmers market so community members can help the environment by buying locally grown food!

Check out this link to learn all about CLC's campus farm!
