**Reconstructing the Constitution**

Join this powerful and timely discussion led by Gary Midkiff as he digs deep into the Constitution and how it applies to today.

Perhaps you are of the mindset that our constitution need not govern over local municipalities, but allow each individual the freedom to regulate and manage themselves?

Examining the fundamental governing principles, with their established precedents; using the lens of hindsight: what changes could we implement as a stronger safeguard to strengthen our democracy? Which document actually provides the best freedoms for our country, the framework of the Magna Carta or our Constitution? What articles could be enhanced or amended to address our present-day issues such as: Foreign Policy, Cyber Security, Human Trafficking, or the longevity of baby boomers?

**Horses and Humans**

Join this two day Quest and learn about the history of horse and humans in forming cultures, cities, societies and partnerships. On day one, experts from Tempel Farms of Wadsworth, Illinois will share history and perspective during an in-class documentary at the College of Lake County, Grayslake Campus.

Day two will take the Quest to Tempel Farms for a guided and exclusive, behind-the-scenes tour of the facility. You will see day to day operations, meet mares and foals and observe these beautiful and majestic animals, the Lipizzans.

Following the visit to Temple Farms, enjoy a delicious lunch at The Shanty in Wadsworth, Illinois. This Lake County fixture dates back to the mid-1800 and the staff will share its rich and living history. The Shanty was featured on The Food Network.
