Open Ended Questions

• What did you like about the campus and grounds?
• What did you not like about the campus and grounds? What issues or problems have you observed?
• What improvements to the campus or grounds would you like to see take place?
Grayslake and Lakeshore: Students were more likely to be Very Satisfied than Faculty/Staff*

* $\chi^2$ test statistic, $\rho < .05$ or $\rho < .01$ or $\rho < .001$
Grayslake students had higher Very Satisfied ratings than Faculty/Staff in almost all areas.
Grayslake: Very Satisfied (Top Three and Bottom Three)

- Library (60%)
- General Appearance of campus (59%)
- Coffee cart (58%)

- Lancer’s dining area (31%)
- Classrooms (33%)
- Parking lots (35%)
Grayslake: Top Ten Dislikes (n=1186)

1. Parking lots
2. General appearance of the campus (including outdated infrastructure/furniture/equipment and outdoor area)
3. Building and space layout
4. Classrooms & Technology
5. Student lounges, life, info, & study areas
6. Cleanliness/Recycling
7. Library/LRC/Computer labs
8. Washrooms
9. Smoking
10. Lancer’s dining area
Grayslake: Quotes

• “Parking areas are quite far, especially for building T. I don't feel especially safe at night and it will be difficult during inclement weather.”

• “The campus has a 60s/70s feel to it in the old sections. I think if we plan on branding this place, it should be a place that looks and IS more modern.”

• “The layout of this place is terrible. I am constantly getting lost because there is no logic to the layout of the buildings.”
Lakeshore students had higher Very Satisfied ratings than Faculty/Staff in many areas.

Lakeshore Campus: Percent Very Satisfied, Students vs. Faculty/Staff

- Classroom technology: Students 47.8%, Faculty/Staff 11.4%
- Classrooms: Students 52.2%, Faculty/Staff 20.5%
- Library: Students 24.4%, Faculty/Staff 0.0%
- Administrative offices: Students 41.3%, Faculty/Staff 18.6%
- General appearance of the campus: Students 54.3%, Faculty/Staff 31.8%
- Auditorium/meeting areas: Students 32.6%, Faculty/Staff 11.4%
- Computer labs: Students 37.0%, Faculty/Staff 15.9%
- Science labs: Students 31.8%, Faculty/Staff 11.6%
- Study areas: Students 26.7%, Faculty/Staff 6.8%
Lakeshore: Very Satisfied (Top Three and Bottom Three)

- Washrooms (49%)
- General appearance of the campus (44%)
- Parking lots (69%)

- Library (18%)
- Student lounges/social areas (20%)
- Study areas (21%)
Lakeshore: Top Ten Dislikes (n=74)

1. General appearance of the campus
2. Building location/design/layout
3. Classrooms and Technology
4. Parking lots
5. Security and safety
6. Computer labs
7. No cafeteria and limited food options
8. Cleanliness
9. Student lounge, life, and study area
10. No library
Lakeshore: Quotes

- “1 North Genesee building is old and decrepit. Old floor tiles and Job center not part of College attracting unemployed. Alley ways in between building are dirty and you see undesirables wandering around campus.”

- “I wish things weren't so disconnected. It's a bit inconvenient to have classes in 1NG and S206 (for example). I wish there were more open computer labs available for students.”

- “Also there are no smart classrooms at the Lakeshore campus so if projects are assigned we don't have access to a projector or computer to present them.”
Southlake had the highest range of Very Satisfied ratings

Range of Very Satisfied Ratings

- **Lakeshore**: Low - 18%, High - 49%
- **Grayslake**: Low - 31%, High - 60%
- **Southlake**: Low - 71%, High - 82%
Southlake: Very Satisfied
(Top Three and Bottom Three)

- General Appearance of campus (82%)
- Washrooms (72%)
- Parking lots (69%)
- Science labs (75%)
- Faculty offices (54%)
- Other labs (71%)
Southlake: Top Ten Dislikes (n=106)

1. Building and space layout
2. General appearance of the campus
3. Classrooms and Technology
4. Parking lots
5. Cleanliness
6. Student lounge, life, and study area
7. Washrooms
8. Landscaping and outside area and green roof
9. No cafeteria and limited food options
10. Computer labs
Southlake: Quotes

• “How you can only enter in through the back, what if you get dropped off by someone in the front and its raining or freezing and you're in a hurry?”

• “Some classrooms in the R-building are difficult to teach in. R102 is especially difficult because of its long narrow shape and the layout of the desks ... The science lab, V242, was very poorly designed. There is far too little lab bench space around the perimeter of the room. This requires the students to all cluster together into small areas during the early set-up phase of labs. A more serious problem with V242 though is the way the fume hoods are wired. Fume hoods should have an on/off switch, but these are permanently on and run constantly. This is a waste of energy but it is also very noisy so it makes it difficult to teach and work in this room.”

• “The V building feels much older and I think it would be a benefit to the campus as a whole if it was remodeled to match the new building better.”
