Frequently Asked Questions on the Prepaid Benefits Card

General Questions on the Benny® Prepaid Benefits Card

1. What is the Prepaid Benefits Card?
The Prepaid Benefits Card is a special-purpose Visa® Card that gives participants an easy, automatic way to pay for eligible health care/benefit expenses. The Card lets participants electronically access the pre-tax amounts set aside in their respective employee benefits accounts such as Flexible Spending Accounts (FSAs).

2. How does the Prepaid Benefits Card work?
It works like a Visa® Card, with the value of the participant’s account(s) contribution stored on it. When participants have eligible expenses at a business that accepts Visa debit cards, they simply use their Card. The amount of the eligible purchases will be deducted – automatically – from their account and the pre-tax dollars will be electronically transferred to the provider/merchant for immediate payment.

3. How does the Prepaid Benefits Card change how the participant is reimbursed for expenses?
Before the Prepaid Benefits Card became available, participants had to pay for their eligible expenses at the time of purchase, submit claim forms along with all receipts, and then wait for the reimbursement to be processed. Checks were issued and mailed to the participants, who then cashed the checks.

However, with the Prepaid Benefits Card, participants simply swipe their Cards and the funds are automatically deducted from their respective benefit account(s) for payment. The Card eliminates most out-of-pocket cash outlays and paperwork, as well as the need to wait for reimbursement checks.

4. Is the Prepaid Benefits Card just like other Visa® Cards?
No. The Prepaid Benefits Card is a special-purpose Visa Card that can be used only for eligible health care/benefits expenses. It cannot be used, for instance, at gas stations or restaurants. There are no monthly bills and no interest.

5. How many Prepaid Benefits Cards will the participant receive?
The participant will receive two Cards. If participants would like additional Cards for other family members, they can fill out the Request for Additional Debit Cards form online under Tools & Support once they log into their account.

6. Will participants receive a new Prepaid Benefits Card each year?
No, participants will not receive a new Card each year. If the participant will again have a benefit associated with the Card for the following plan year – and he/she used the Card in the current benefit year
– the participant will simply keep using the same Card the following year. The Card will be loaded with the new annual election amount at the start of each plan year.

7. **What if the Prepaid Benefits Card is lost or stolen?**
   Participants can log into their online account and update the status of their card to a status of lost or stolen. Then, they can request a new set of Cards. Participants could also call Nyhart to report a Card lost or stolen as soon as they realize it is missing, so the Nyhart can turn off their current Card(s) and issue replacement Card(s). There is a $10.00 fee for replacement cards.

**Getting Started and Activating Your Card**

1. **How do participants activate the Card?**
   Participants do not need to activate the Card. It will be activated upon first use.

2. **What dollar amount is on the Prepaid Benefits Card when it is activated?**
   For Health Care FSAs, the dollar value on the Card will be the annual amount that participants elected to contribute to their respective employee benefit account(s) during their annual benefits enrollment. It’s from that total dollar amount that eligible expenses will be deducted as participants use their Cards or submit manual claims.

   The Dependent Care FSAs is funded incrementally at each pay period, so it is especially important to be aware of account balances in order to avoid Card declines at the point of service.

**Using the Card**

1. **Where may participants use the Prepaid Benefits Card?**
   IRS regulations allow participants to use their Prepaid Benefits Cards in participating pharmacies, mail-order pharmacies, discount stores, department stores, and supermarkets that can identify FSA eligible items at checkout and accept Visa® prepaid cards. Eligible expenses are deducted from the account balance at the point of sale. Transactions are fully substantiated, and in most cases, no paper follow-up is needed. Participants can find out which merchants are participating by visiting the website on the back of the Card.

   The Cards are also eligible for use in pharmacies that have certified that 90% of the merchandise they sell is FSA eligible. However, since these pharmacies cannot identify the eligible items at the point of sale, another form of auto substantiation or paper follow-up will be required. Please be sure to keep all itemized documentation from Card transactions.

   Participants may also use the Card to pay a hospital, doctor, dentist, or vision provider that accepts or Visa®. If the transaction cannot be auto substantiated, paper follow-up will be required.
2. Are there places the Prepaid Benefits Card won’t be accepted?
   Yes. The Card will not be accepted at locations that do not offer the eligible goods and services, such as hardware stores, restaurants, bookstores, gas stations and home improvement stores.

3. If asked, should participants select “Debit” or “Credit”?
   Your Prepaid Benefits Card is actually a prepaid card. But, since there is no “prepaid” selection available, participants should select “Credit.” Participants do not need PIN and cannot get cash with the Prepaid Benefits Card.

4. How does the Card work in participating pharmacies, discount stores, department stores, and supermarkets?
   a. Bring prescriptions, vision products, eligible OTCs and other purchases to the register at checkout to let the clerk ring them up. (Please note: The list of eligible OTC items changed per the Patient Protection and Affordable Care Act of 2010. There is a list of those items on Nyhart’s website.)
   b. Present the Card and swipe it for payment.
   c. If the Card swipe transaction is approved (e.g., there are sufficient funds in the account and at least some of the products are FSA eligible), the amount of the FSA eligible purchases is deducted from the account balance and no receipt follow up is required. The clerk will then ask for another form of payment for the non-FSA/HRA-eligible items.
   d. If the Card swipe transaction is declined, the clerk will ask for another form of payment for the total amount of the purchase.
   e. The receipt will identify the FSA eligible items and may also show a subtotal of the FSA eligible purchases.
   f. In most cases, the participant will not receive requests for receipts for FSA eligible purchases made in participating pharmacies, discount stores, department stores, or supermarkets.

5. Why do participants need to save all of their itemized receipts?
   Participants and their other eligible users should always save itemized receipts for FSA purchases made with the Prepaid Benefits Card. They may be asked to submit receipts to verify that their expenses comply with IRS guidelines. Each receipt must show: the merchant or provider name, the service received or the item purchased, the date and the amount of the purchase. The IRS requires that every card transaction must be substantiated. This can occur through automated processing as outlined by the IRS (e.g. copay matching, etc.). If the automated processing is unable to substantiate a transaction, the IRS requires that itemized receipts must be submitted in order to validate expense eligibility.

6. How long do participants need to save their itemized receipts?
   Participants should save itemized receipts for FSA until the end of the benefit year and/or run out period.

7. What if participants lose their receipts or accidentally swipe the Card for something that’s not eligible?
   Usually the service provider can recreate an account history and provide a replacement receipt. In the event that a receipt cannot be located, recreated, or if the expense is ineligible for reimbursement, the participant can send a check or money order to Nyhart for the amount so it can be credited back to the participant’s FSA account.
8. May participants use the Prepaid Benefits Card if they receive a statement with a Patient Due Balance for a medical service?
Yes. As long as they have money in their account for the balance due, the services were incurred during the current plan year, and the provider accepts MasterCard® debit cards or Visa® debit cards, participants can simply write the Card number on their statement and send it back to the provider.

9. Sometimes the participant is asked for the CVV when paying the balance due or when placing an order by phone or online. What is this and where is it found?
CVV stands for “Card Verification Value.” It is a 3-digit number that can be found on the back of the card to the right of the signature panel.

10. How do participants know how much is in their account?
They can visit their personal Account Summary page at http://my.nyhart.com/loginhome.aspx and view their account activity and current balance. Or, they can call Nyhart at the phone number on the back of the Card to obtain their current balance. Participants should always know their account balance before making a purchase with the Card.

11. What if participants have an expense that is more than the amount left in their account?
By checking their account balance often – either online or by calling Nyhart at the phone number shown on the back of the Card – participants will have a good idea of how much is available. When incurring an expense that is greater than the amount remaining in their account, participants may be able to split the cost at the register. (Check with the merchant.) For example, participants may tell the clerk to use the Prepaid Benefits Card for the exact amount left in the account, and then pay the remaining balance separately. Alternatively, participants may pay by another means and submit the eligible transaction manually via a claim form with the appropriate documentation to Nyhart.

12. What are some reasons that the Prepaid Benefits Card might not work at point of sale?
The most common reasons why a Card may be declined at the point of sale are:
   a. The participant has insufficient funds in his or her employee benefit account to cover the expense.
   b. Non-eligible expenses have been included at the point-of-sale. (Retry the transaction with the eligible expense only.)
   c. The merchant is encountering problems (e.g. coding or swipe box issues).
   d. The pharmacy, discount store, department store, or supermarket cannot identify FSA eligible items at checkout according to IRS rules.

13. Is the participant responsible for charges on lost or stolen Prepaid Benefits Cards?
If Nyhart and the issuing bank are notified within 2 business days, the participant will not be responsible for any charges. If the notification is after 2 days, the participant may be responsible for the first $50 or more. Replacement Cards may be purchased.

14. Whom do participants call if they have questions about the Prepaid Benefits Card?
Call Nyhart at the phone number shown on the back of the Card.

16. How will a participant know to submit receipts to verify a charge?
The participant will receive a letter or email notification from Nyhart if there is a need to submit an itemized receipt. All receipts should be saved per the IRS regulations.
17. What if a participant fails to submit receipts to verify a charge?
   If receipts are not submitted as requested to verify a charge made with Prepaid Benefits Card, then the Card will be suspended until receipts are received. The participant may be required to repay the amount charged. Submitting a receipt or repaying the amount in question will allow the Card to become active again.
